Unless the following time periods are expressly extended by the Developer in writing, construction of the residential building on a Lot shall be commenced within six months following the date of delivery of deed from the Developer to the purchaser of such Lot and shall be completed within nine months after such commencement. In the event such construction is not commenced within such six month period (or extension thereof), the Development shall have, prior to commencement of construction, the right to repurchase such Lot from such purchaser at its original sale price. No Owner of a Lot in violation of this construction commencement provision shall be entitled to reimbursement for taxes, interest or other expenses paid or incurred by or for such Owner.
8. Exterior Structures.
- (a) No Exterior Structure shall be erected upon, moved onto or maintained upon any Lot except (i) with and pursuant to the advance written approval of the Architectural Committee, and (ii) in compliance with the additional specific restrictions set forth in the subsection (b) below; provided, however, that the approval of the Architectural Committee shall not be required for any Exterior Structure erected by or at the request of the Developer of any Exterior Structure that has been specifically approved by the Developer prior to the issuance of a temporary or permanent certificate of occupancy as part of the residential construction plans approved by the Developer and has been built in accordance with such approved plans.
